Ron.conner@itmo.sc.gov

At this time there is not a contract in place for e-waste or e-Recycling. Please note however that there are facilities within South Carolina that provide this service. A link to the EPA's map of facilities that are certified to the e-Stewards and/or R2 standards can be found here - <http://www.epa.gov/osw/consERVE/materials/ecycling/certmap.htm>.

e-Stewards and R2 are the certification standards for e-waste and e-recycling facilities in the United States.
