ACCOUNTABILITY OF FUNDS	All areas in the accountability report will be affected by funding. The Attorney General’s Office is requesting recurring funding for targeted personnel salary adjustments in the amount of \$2,157,973 to retain critical talent and acknowledge performance achievements.

	<i>What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?</i>
JUSTIFICATION OF REQUEST	The Attorney General’s Office is requesting recurring funding for targeted personnel salary adjustments in the amount of \$2,157,973 to retain critical talent, acknowledge performance achievements, and more closely align salaries with market value. This amount would allow the Office to increase attorney starting salary to \$75,000. It also includes performance and retention funds for associate professionals/non-attorneys based on a salary review process with division management, as well as additional funds needed to fill vacant attorney positions at the same competitive rate we hope to pay current staff. It also includes a 10% buffer for vacant associate professional/non-attorney positions and any other changes in staffing that may occur between now and July 2026. A review of state averages indicates that the Attorney General’s Office still falls slightly behind other agencies in the Attorney III category. While comparable monetarily at the Attorney V and Attorney VI classification, our agency attorneys have significantly more state service. The Office has also identified hiring salaries at several local entities that exceed our current starting salary of \$66,400. These include a posting for an entry-level attorney in Berkley County and Anderson County Solicitor’s Offices starting at \$70,768 and \$80,687 respectively. We also gathered data regarding starting salaries with other Attorney General Offices in the Southeast region. The South Carolina Attorney General’s Office has one of the two lowest starting salaries of the seven states that provided data (ranging from \$58,111 - \$92,000). In 2025, the agency averaged 4.96 applications per attorney posting, of which only an average of 2.96 met the minimum requirements to be considered for the vacancy. Attorneys make up 30% of the office but represented 47.22% of agency turnover during fiscal year 2025. The attorney turnover rate for 2025 is 20.86%, and 40% indicated they left for higher compensation. Based on the current Mercer midpoints, 100% of the attorneys fall below market value. Of the 53 total classifications utilized by the agency, 62% of the classifications have 50% or more employees who fall below the midpoint. Agencywide, 47.37% of employees who separated indicated one of their reasons for leaving was higher compensation. Of those leaving for reasons other than personal or retirement, 64.7% left for positions at other state or county employers. SC Attorney General positions carry statewide responsibilities and collaboration. Dissimilar to our local prosecution counterparts who are responsible for the many varieties of cases within their counties and regions, SC AG positions are required to travel and handle cases that may be anywhere within the State of SC which creates an added layer of complexity and dedication. The Office aims to be the premier law firm in the state and must be able to compensate staff accordingly.
	<i>Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.</i>

ACCOUNTABILITY OF FUNDS	Goal 7 Administration. The agency is requesting (1) Program Manager I and (1) Program Coordinator I for the Administration and Executive divisions.
------------------------------------	---

What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency’s accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	Executive divisions. <i>What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?</i>
JUSTIFICATION OF REQUEST	Program Manager I: The evolving operation demands, with the AG's Office as the primary occupant for the Dennis Building, have created a need for a dedicated Operations Manager. This role will provide centralized oversight of the Dennis Building operations to ensure smooth day-to-day operations and strategic management of our infrastructure. With the Department of Natural Resources' departure, the continued growth and complexity of our organizational operations across multiple facilities necessitate the establishment of a dedicated Operations Manager position. The Operations Manager will serve as a central point of coordination and oversight for various operational functions, with responsibilities that directly impact staff productivity, safety, and service delivery. This transition significantly increases our responsibility for managing the building's operations, including internal requests, maintenance coordination, space planning, and long-term facility improvements. This shift, combined with the Brown Building staff and 1201 Main staff, requires a professional role dedicated to managing operations across multiple locations with consistency and accountability. This dedicated role will manage Support Services staff, fleet & vehicle inventory management, support emergency preparedness & safety compliance, plan & manage renovation and improvement projects from concept to completion, inventory & access management, facility management, and strategic operational planning. This position will ensure coordinated, proactive, and efficient management of our buildings, assets, and services – ultimately supporting staff productivity. The Operations Manager will provide the oversight necessary to maintain facility requests to the highest standards while relieving current administrative burdens on administrative management staff. Program Coordinator I: Operational demands in Constituent Services (Executive Division) have also surpassed one individual's capacity for our organization. In the past decade, constituent requests have increased 500% from 3,712 in 2015 to 18,500 in fiscal year 2024. Constituent Services is responsible for incoming mail, phone calls, emails, internet traffic, and public walk-ins. This position serves as the office's liaison between requests from citizens that may need to be addressed by a particular division, such as Securities, Consumer Protection, Antitrust, Civil, PCR, FOIA, Public Information, and speaker requests, to name a few. Departmentally, staff have grown, and various new services for communication have been instituted for engagement. This has dramatically increased the number of staff referrals to Constituent Services. Outside agencies and other governmental offices refer calls and mail to Constituent Services, which adds to the workload of those seeking assistance or information. The position handles and documents price gouging complaints during a declared State of Emergency. Given the high demand of our constituency, especially during natural disasters or major statewide programs, an additional full Constituent Services Coordinator is essential. With the increase and prediction of weather emergencies, we expect longer and more frequent periods of an increased workload. Other duties include providing information for FOIA requests and retaining information for litigation holds. This position works closely with the Administration Division, supporting the main receptionist with constituent calls and visitors. Investment in this position will enhance public trust, expand our office's operational capacity, and inform appropriate staff of changes through data collected and trends captured. An additional position would allow for more consistent and timely responses, and improved services for our citizens, partnering agencies, and internal staff. Identifying and appropriating the necessary resources for this critical position supports the office's mission of delivering accountable, timely, and effective public service. The SC Attorney General's Office is a high-volume, fast-moving legal office; the complexity and urgency of constituent needs (oftentimes not AG boundaries) require dedicated professional attention beyond what general staff can consistently support. This role is not reactive, but instrumental in improving communication, building and reinforcing public trust.
	<i>Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.</i>

**JUSTIFICATION OF
REQUEST**

The VCCRU was created to reduce the violent crime case backlog in counties who requested assistance. According to the Administrative Order for running court, cases must be published approximately every 15 days between status conferences and trial dockets. While this has been handled by one attorney, it is beyond the bandwidth of the single attorney to continue as the program grows. The two Investigators will assist the new Attorney with thoroughly and timely review of backlog cases to prep for trial. Below are current statistics for the unit:

The unit has adopted approximately 184 different cases from Sumter. We have one from Darlington and two from Clarendon which are related to Sumter cases.

The Unit has closed approximately 31 of those cases since beginning work.

Approximately 153 cases are still pending.

The charges total approximately 58 separate offenses.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

---------------	--

FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

**JUSTIFICATION OF
REQUEST**

The State Grand Jury division has increased its caseload every fiscal year, frequently taking on new and more complex investigations. SGJ division has developed signature capabilities in investigating and prosecuting sophisticated gangs and organized crime, drug trafficking organizations, and white collar crimes (public corruption, embezzlement, securities fraud), to name a few. As these criminal enterprises adapt with technology to become more efficient, deadly, and profitable, so too must SGJ in its ability to identify, counter, and disrupt.

The SGJ division has grown and accepted an increased case load which has created the need for additional investigative resources to gather, process, and analyze the volume of information and data collected pursuant to a SGJ investigation. Additional investigators are essential to the continued success of the division by supplementing our local, state, and federal law enforcement partners, being familiar with grand jury practice and procedures, and being co-located with and responsive to prosecutors. Investigators and analysts are instrumental in combing through the volumes of evidence collected, primarily in the form of cell phone downloads, financial data, social media downloads, open source information, and all documentation gathered by subpoena or search warrant.

As far as investigative capabilities, the SGJ division currently has (1) Special Investigator (Class 1 LE), (1) Forensic Accountant (Class 3 LE), and (1) Forensic Analyst. This request is for an additional Class 1 Investigator.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	Goal 1 Criminal Prosecution. The agency is requesting \$130,000 for Critical Witness Protection Program/Rehabilitation Funds in State Grand Jury Cases.

FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

**JUSTIFICATION OF
REQUEST**

The South Carolina Attorney General's Office requests discretionary funds to allow for the securing and protection of individuals identified as a "critical witness." A "critical witness" is any person who is participating in a criminal investigation, or has received a subpoena or who is reasonably expected to give testimony that is, in the judgment of the prosecuting officer, essential to a criminal investigation or proceeding or such person's relatives, guardians, friends or associates who are reasonably endangered by such person's participation in the criminal investigation or proceeding. Request also that these funds be used to protect "endangered" persons, defined as individuals who are placed in danger due to an association with the critical witness. Individuals who elect to cooperate with a criminal investigation may be associated with dangerous drug trafficking organizations and/or criminal gangs and are frequently subject and vulnerable to retaliation from co-conspirators. The State Grand Jury Division frequently investigates complex, resourceful, well-funded, and extremely dangerous criminal organizations. Cooperating witnesses are frequently concerned about threats against their persons and family members as a result of providing critical information to the SGJ. Accessible funds by SCAGO for the purpose of protecting and securing these "critical witnesses" will allow investigations to proceed uninhibited and securely, ensure the security and safety of all persons involved, and maintain in the integrity of the eventual prosecution of any charged conduct. The SGJ Division requests these funds to temporarily protect and secure critical witnesses to ensure the integrity of the case and at-risk cooperators' safety. Should funds be appropriated for the purpose of creating a South Carolina Witness Protection Program, internal policies and procedures should be adopted and implemented to safeguard and ensure the effective and appropriate distribution of funds.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

**JUSTIFICATION OF
REQUEST**

The capital and collateral litigation section has seen an increase in capital litigation (complex collateral litigation, state and federal, and also other related civil litigation matters and end stage litigation) which affects bandwidth for concurrently assigned non-capital matters. That, combined with loss of experienced capital litigation attorneys through retirement, and coupled with a steady flow of direct appeal briefs and federal habeas corpus actions at average or above average levels, has resulted in unsustainable workloads for the existing section attorneys and support staff. Additional personnel would be necessary to normalize caseload, reduce strain on the present staff, and maintain quality in the assigned work.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

**JUSTIFICATION OF
REQUEST**

In order to implement the examination provisions of the South Carolina Uniform Money Services Act, the Attorney General's Office is requesting an examiner with a strong financial analysis background who will assist with the more complex money services licensing applications, as well as performing examinations of licensees. This individual will also perform examinations of larger investment advisers, as time permits. Such a position requires a high level of financial knowledge and background as well as an understanding of money services.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	The agency is requesting funding to fill a State FTE received in FY2026 budget appropriation. This position was appropriated but funding received was insufficient to fill the vacancy. The agency’s original ICAC budget request was reduced and therefore all positions could not be fully filled. The agency is requesting .35 federal FTE to be utilized by the DOJ ICAC grant program.
------------------------------------	---

What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency’s accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?

RECIPIENTS OF	The requested funding will be utilized in the ICAC division to support an additional Attorney. The .35 FTE federal request will be utilized to carry out the responsibilities of the DOJ ICAC grant program.
----------------------	--

FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Last legislative session, the Internet Crimes Against Children section (ICAC) was awarded three new FTE's but only received enough monetary funding to staff two. The three FTEs requested were originally designated for two investigators and one cybertip analyst position. The ICAC budget request was reduced in the final state appropriation, and the agency was left short to fully support all three positions. The agency moved to fill the two investigator positions with the funding received. However, the need for the cybertip analyst was dire and cybertips were steadily coming in (the unit received over 11,000 cybertips during fiscal year 2024). The agency made the decision to repurpose a recently vacant DOJ ICAC grant funded attorney position to fund the cybertip analyst. This was approved through DOJ grant adjustment notice.

This legislative cycle, we are requesting funding for the third FTE which was received in FY2026 to replace the attorney position repurposed on the federal grant. This Attorney position is still a great need and re-establishing the 9th ICAC Assistant Attorney General position will be instrumental in keeping our case load manageable as well as employee retention.

Currently, the ICAC section has approximately 800 cases open. This means, fully staffed with 8 attorneys, each attorney still has a caseload of 100 cases. These cases in the ICAC section deal with egregious child sexual abuse that has been documented through pictures and videos as well as child predators who solicit and travel to meet children via the internet, all of which our staff are subjected to having to watch in order to verify it meets S.C. state law. Working these cases, much less 100 of them, takes a huge toll on the mental health and wellbeing of our staff. To help mitigate this, we are requesting the funding for the third FTE to replace the 9th attorney position lost by funding the cybertip analyst.

The unit is also requesting a .35 federal FTE to fulfill the DOJ grant program requirements.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

----------------------------	--

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	This position will be .75 federal and .25 state (match) for our Vulnerable Adults and Medicaid Provider Fraud (VAMPF) unit. This unit was audited in 2020 by Health and Human Services, Office of Inspector General (HHS-OIG), our federal funding source who contribute 75% of our budget. HHS-OIG made findings that SCMFCU “had low staff levels that contributed to large caseloads for Unit staff” and that “the Unit’s staff levels were low in relation to the State’s Medicaid program expenditures”. The Unit addition of this attorney position is needed to alleviate the criminal case load of current attorneys and to initiate use of the Unit’s statutory civil jurisdiction. In State fiscal year 21/22, 22/23, 23/24, and 24/25, SCMFCU received 134, 177, 223 and 229 referrals, respectively. This represents a 71% percent increase over a four-year period in case referrals received by the Unit. The addition of this attorney position is needed to mitigate the number of increased criminal case assignments per attorney. The Unit has state and federal statutory civil jurisdiction but has been unable to utilize this jurisdiction for a lack of attorneys with civil experience. This additional attorney would allow the Unit to use our authority to recoup funds for the State Medicaid program and vulnerable adults from bad actors in cases that may not meet the standards for criminal prosecution.

TITLE	Revisions to the State Vulnerable Adults and Medicaid Provider Fraud (VAMPF) Control Regulations Provide a brief, descriptive title for this request.
EXPECTED SAVINGS TO BUSINESSES AND CITIZENS	Please see summary section. What is the expected savings to South Carolina’s businesses and citizens that is generated by this proposal? The savings could be related to time or money.
FACTORS ASSOCIATED WITH THE REQUEST	Mark “X” for all that apply: X Repeal or revision of regulations. Reduction of agency fees or fines to businesses or citizens. X Greater efficiency in agency services or reduction in compliance burden. Other
METHOD OF CALCULATION	Review and analysis of the current Medicaid Fraud statutes in the State of SC and other State Medicaid Fraud Units. Describe the method of calculation for determining the expected cost or time savings to businesses or citizens.
REDUCTION OF FEES OR FINES	n/a Which fees or fines does the agency intend to reduce? What was the fine or fee revenue for the previous fiscal year? What was the associated program expenditure for the previous fiscal year? What is the enabling authority for the issuance of the fee or fine?
REDUCTION OF REGULATION	SC Code § 43-7-90 , SC Code § 43-35-10 , SC Code § 43-7-60 Which regulations does the agency intend to amend or delete? What is the enabling authority for the regulation?
SUMMARY	Proposed amendments to §43-7-60 would include a clarification to the definition of a provider to include services provided through Managed Care Organizations and penalties to reflect the amounts of fraudulent claims, similar to property crime statutes. - There is great interest by our taxpayers in combating fraud in the Medicaid program, and this updated statute would allow us to more effectively combat fraud. The current statute requires us to charge one count for each false claim, which is not in the best interest of judicial economy. A statute where we can aggregate the false claims into one charge will be much more efficient. This update also reflects the current Medicaid environment, with services being provided through Managed Care Organizations and not just the South Carolina Department of Health and Human Services. Proposed amendments to §43-7-90 would allow us to use subpoenas in our investigations. - Much of the evidence uncovered during our investigations is stored in another state or in the cloud, so the ability to use a subpoena is paramount to our continued fight against fraud. Additionally, it is burdensome and an additional cost to taxpayers for our investigators to have to travel to the county where the fraud occurred in order to have a search warrant issued by a magistrate. This is a much more efficient use of time and

resources.

Proposed amendments to §43-35-10 would prohibit the unauthorized videotaping or recording of vulnerable adults.

- It is in the best interest of the people of South Carolina to protect our vulnerable adult population from harassment and abuse, and this amendment would close a perceived loophole in the Omnibus Adult Protection Act allowing unauthorized recording of these individuals.

Provide an explanation of the proposal and its positive results on businesses or citizens. How will the request affect agency operations?
