ACCOUNTABILITY OF FUNDS	The agency continues to provide excellent service to policy holders and their injured workers while being good stewards of agency funds. Last year, we were able to request a \$1.4M decrease to our budget due to a reduction in IT costs as we near the end of our new case management system implementation. This year, our increase of \$691,401 reflects our focus on application and security support of our internal systems, as well as ensuring pay equity within our current staff, and our ability to retain and recruit talented staff to ensure excellent customer service for our policyholders and their injured workers.
------------------------------------	---

What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency’s accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?

	Agency employees would receive the funds requested in personnel services and

<i>What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?</i>	
JUSTIFICATION OF REQUEST	State Accident Fund reduced our request for authorization by \$1.4M last fiscal year. This year the agency is requesting an appropriation increase of \$691,401 due to other operating cost increase of \$328K, increase of \$346K in classified positions, and a \$17K increase in employer contributions. The other operating increase included in the authorization request for FY2027 is primarily for an increase in IT related costs to application and security support of our internal systems. The increase in personnel services and employer contributions is to ensure that the agency has the funds available to cover any additional state mandated salary increases and to allow the agency to retain the talent necessary to administer claims efficiently.
<i>Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.</i>
