**Entering the McEachern Parking Facility**

1. You must enter at Pendleton Street entrance or Senate Street entrance. All vehicles should have a placard to obtain entry into the facility, which must be displayed on the vehicle’s rearview mirror with the state seal facing the windshield. Between the hours of 7:45 a.m. and 9:15 a.m. the gates will be open and Bureau of Protective Services (BPS) security personnel will manually screen all cars entering the facility. **Note:** When the Department of Homeland Security issues an Elevated Threat Alert, the gates will be operational whenever the facility is open.

2. If the BPS officer on duty is unable to see your placard, you will be required to stop and display either placard or proxy ID card. If neither placard nor proxy ID card can be produced, the officer
will direct your vehicle away from the entrance lane and you must find an alternative parking location.

3. Before 7:45 a.m. and after 9:15 a.m., the remote reader at the gate will capture the placard information and will automatically open for all active placards. **You MUST approach the gates at a speed of 10 miles per hour or less in order to allow the remote reader to capture placard information and raise the gate.** If entering behind another car, wait for the gate to fully descend before approaching. Any vehicle attempting to pass through a gate that is still in the upright position from a previous car will be stopped by BPS officers. If the reader does not read the placard, you may scan your proxy ID card to gain entrance.

4. If neither the placard nor the proxy ID card allows entrance, press the intercom to contact BPS for assistance.
