• Provide insights and rationale for the new SRS Vision - Enterprise SRS

• Share concepts and delivery schedule for the 2011 SRS Strategic Plan
Vision for the Future of SRS

• The heart of the future vision for SRS is the idea that unique nuclear materials expertise and assets reside at the site which can be used to the benefit of the nation.

• Three global business segments are the natural outgrowth of the resident skills at SRS.
Business Segments

National Security
Enhance national security by providing innovative, customized solutions to the global nuclear nonproliferation and detection, counter proliferation, deterrence and threat reduction challenges through the innovative application of unique nuclear materials, technology and systems assets at SRS.

Clean Energy
Accelerate the deployment of nuclear energy through public and private partnerships that solve critical nuclear material storage, processing and disposition challenges, and use our broader expertise to support regional energy sustainability while maintaining environmental health.

Environmental Stewardship
Transform liabilities into assets to reduce the environmental legacy of nuclear materials and radioactive waste at SRS in a way that utilizes technology to provide innovative solutions to speed and improve SRS processing and leverages these solutions to other DOE and non-DOE locations and customers.
12 Strategic Initiatives

National Security

Clean Energy

Environmental Stewardship

Establish Center for Applied Nuclear Materials Process and Engineering Research

Develop Solutions to Close and Better Secure the Nuclear Fuel Cycle

Accelerate Liquid High Level Waste Dispositioning

Accelerate Deployment of Small Modular Reactors

Deliver Disposition Paths for Nuclear Materials

Leverage and Revitalize Site Assets (Facilities, People) to Solve National and Regional Issues

Increase Helium-3 Supply to Aid Nuclear Nonproliferation

Reduce Greenhouse Gas Emission via Clean Alternative Energy Projects

Develop and Deploy Next Generation Cleanup Technologies

Establish Advanced Center for Nuclear Forensics and Attribution

Implement Modifications to Tritium Infrastructure

Expand Reach and Impact of National Center of Radioecology
Enterprise SRS Rollout

- September 29 Rollout during P&R Completion Ceremony
  - Includes distribution of Strategic Plan
• SRS is not a Closure Site

• DOE is committed to excelling at current missions

• A high priority is also being placed on developing broader missions for SRS to serve national needs

• The new Strategic Plan provides the framework for both current and developing missions
